SUMMARY

Full-Stack Engineer with 4+ years of experience building scalable web applications and backend systems using Symfony and modern frontend frameworks (Angular, Vue.js, React, Next.js). Specialized in REST API design, system architecture, and cloud-based integrations, with a strong focus on reliability and performance.

Experienced in Agile environments, actively contributing to technical decisions, code reviews, and engineering standards. Recognized for a pragmatic approach to problem-solving, strong adaptability, and a focus on delivering maintainable, high-quality systems in collaborative teams.

CORE SKILLS

- **Backend: Python (Django, Django REST Framework, Flask), PHP (Symfony), Java (Spring Boot), Node.js (NestJS, Express.js)**
- **Frontend: Angular, Vue.js, Next.js, React.js, JavaScript, HTML, CSS**
- **Cloud & DevOps: AWS, GCP, Docker, CI/CD**
- **Databases: PostgreSQL, MySQL**

PROFESSIONAL EXPERIENCE

Full-Stack Software Engineer
Aktisea – Ma Visite Médicale (Remote)   Apr 2025 – Feb 2026

- Developed and maintained features for a healthcare platform managing employee medical visits and compliance.
- Built backend logic and APIs using Symfony and Python-based services, handling complex business rules.
- Implemented email-driven workflows with PDF attachment processing and automated notifications.
- Created dynamic frontend interfaces using Twig and JavaScript, with conditional rendering based on domain logic.
- Worked with cloud-hosted services, asynchronous jobs, and production monitoring.

Back End Developer (Part-Time) – CYBERME (Remote)   Dec 2021 - Jun 2022

- Integrated BrowserStack with Django-based test environments for mobile and cross-browser QA.
- Developed backend automation tools and internal APIs.
- Assisted with deployment workflows and server configuration.

Full Stack Developer │ Lokafy (Remote)   Mar 2021 - Mar 2025

- Designed and developed web applications using Django, Django REST Framework, Flask and Vue.js.
- Built and documented REST APIs supporting booking, messaging, and user management features.

- Collaborated with frontend teams using Vue.js and React to deliver responsive user interfacesl
- mproved application performance and scalability for platforms serving 10,000+ monthly users.
- Participated in CI/CD pipelines and cloud deployments on Google Cloud Platform.

TECHNICAL SKILLS

Languages
- **Python, JavaScript, PHP, Java**

Backend Frameworks
- **Django, Django REST Framework, Flask**
- **NestJS**
- **Symfony, Spring Boot**

Frontend Frameworks & libraries
- **Angular,**
- **React.js**
- **Next.js**
- **Vue.js**

UI & Styling
- **TailwindCSS**

Backend & Architecture
- **Conception d'API REST**
- **Authentification & Autorisation**
- **Traitements asynchrones et tâches en arrière-plan**
- **ORM & Data Modeling (Prisma, Doctrine)**

Databases
- **PostgreSQL**
- **MySQL**
- **MongoDB**

Cloud & DevOps
- **AWS, Google Cloud Platform**
- **Docker, Jenkins**
- **Linux, CI/CD pipelines**

Outils
- **Git, Postman, SonarQube, Cloudflare**

EDUCATION

Holberton School – Full Stack Web Development   **2019 – 2021**

Project-based curriculum focused on software engineering fundamentals, back-end/API development (Python, Django), front-end (JavaScript, Vue.js), DevOps, and collaboration best practices.

Higher School of Applied Sciences and Technology of Gabes (ESSAT)   **2016 – 2019**

Bachelor's in Computer Science Applied to Management
Blended technical and business coursework with a focus on databases, software development, and project management.
